

Please, amend the claims as follows:

Please cancel claim 38 without prejudice.

Please substitute the following claims for the pending claims with the same number.

Sub C17
B2
31. (Amended) A kit comprising an implement, a pad containing superabsorbent material and a detergent composition containing no more than about 0.5% by weight of detergent surfactant; less than about 5.0% by weight of a solvent and a pH of more than about 9.

Sub C27
B3
33. (Amended) A process of cleaning a surface, said process comprising the steps of: applying a cleaning effective amount of a detergent composition to said surface, said detergent composition containing no more than about 0.5% by weight of detergent surfactant; less than about 5.0% by weight of a solvent and a pH of more than about 9 and wiping said surface with an absorbent structure comprising a superabsorbent material such that said composition is absorbed by said absorbent structure.

Sub C37
B4
37. (Amended) A process of cleaning a surface, said process comprising the steps of: applying a cleaning effective amount of a detergent composition to said surface, said detergent composition containing no more than about 0.5% by weight of detergent surfactant; less than about 5.0% by weight of a solvent and a pH of more than about 9 and wiping said surface with a device selected from the group consisting of string mop, sponge mop, strip mop and floor cloth such that said composition is absorbed by said device.

Please add the following claims:

Sub D17
39. (New) The kit of claim 31 wherein said composition comprises from about 0.25% to about 4.0% by weight of said solvent.

B5
40. (New) The kit of claim 31 wherein said composition further comprises a polymer selected from the group consisting of xanthan gums, guar gums, gum arabic, pectin poly(styrene sulfonate), and mixtures thereof.

41. (New) The kit of claim 40 wherein said composition comprises from about 0.0001% to about 0.2% by weight of said polymer.

42. (New) The process of claim 33 wherein said composition comprises from about 0.25% to about 4.0% by weight of said solvent.

43. (New) The process of claim 33 wherein said composition further comprises a polymer selected from the group consisting of xanthan gums, guar gums, gum arabic, pectin poly(styrene sulfonate), and mixtures thereof.

44. (New) The process of claim 43 wherein said composition comprises from about 0.0001% to about 0.2% by weight of said polymer.

45. (New) The process of claim 37 wherein said composition comprises from about 0.25% to about 4.0% by weight of said solvent.

46. (New) The process of claim 37 wherein said composition further comprises a polymer selected from the group consisting of xanthan gums, guar gums, gum arabic, pectin poly(styrene sulfonate), and mixtures thereof.

47. (New) The kit of claim 46 wherein said composition comprises from about 0.0001% to about 0.2% by weight of said polymer.
